PUBLIC SERVICE ANNOUNCEMENT

The City of Corning Water Department will be flushing City hydrants week days between September 30th and October 11th, from 7:00am to 3:30pm.

During this time, customers may experience low water pressure and/or discolored water. Please check the cold water tap for any discoloration before using. The discoloration does not present a health problem, however it could potentially cause problems if a customer is doing laundry. In the event that you experience discolored water, running the cold water until it becomes clear will reduce the potential of discolored water entering your hot water tank.
